The American 929-1043 Design is an open layout with a covered front porch and makes this one story home design relaxed and fit for all kinds of families. A convenient drop zone (between the kitchen and two-car garage) is the perfect place to store boots and coats during indoor/outdoor transitions. This roof design can be customised to suit local planning authorities.

Warm up next to the cozy fireplace in the great room (which features coffered ceilings. Tucked away to the right of the floor plan, the master suite enjoys privacy and a large walk-in closet. Two additional bedrooms reside to the left home design. Upstairs, a bonus room would make a great home office or guest room.
