**The Wigmore** is another fantastic addition to our collection of traditional bungalow plans. It utilises a simple but effective layout which is both flexible and comfortable.

With four large double bedrooms (two of them en-suite), a bright and airy living room and an ample kitchen / diner, this deceptively spacious design will suit families and older homeowners alike.

With two gable ends at the front of the property, this design also offers the option of a glazed facade to one or both of the wings of the front elevation.
