**The Cusop** is one of our most popular self build cottage plans, combining rustic charm with high-quality internal design.

With four well-proportioned bedrooms, separate kitchen and dining room, a large living room and even a study (which could quite easily be used for other purposes, of course), there is certainly no lack of floor space.

The design lends itself well to having guests over to stay, with an en-suite attached to the master bedroom and a spacious landing.

The Cusop has even been featured on the BBC's 'Escape to the Country' as the mystery house.
